business value or higher

Optimize the Close

- ✔ Simplify your close with real-time collaboration across teams.
- ✔ Achieve greater efficiency and save time by standardizing workflows.
- ✔ Gain full visibility into close status to easily identify bottlenecks.
- ✔ Enhance data accuracy and consistency across multiple locations.

Automate the Close

- ✔ Automate up to 80% of reconciliations for greater productivity.
- ✔ Simplify journal entries and reduce errors with automated workflows.
- ✔ Use AI to customize and streamline transaction matching.
- ✔ Ensure interoperability with your existing systems for seamless data flow.

Connected Compliance

- ✔ Centralize risk, compliance, and internal audit workflows on one platform.
- ✔ Proactively mitigate risks with real-time control execution.
- ✔ Embed controls into business processes to ensure accountability.
- ✔ Automate sample selections, evidence collection, and audit testing.

Integrated Record-to-Report

- ✔ Achieve 35% faster reporting with AI-powered solutions and real-time updates.
- ✔ Reduce data silos by consolidating your financial tech stack by up to 21%.
- ✔ Centralize operations to simplify multi-entity financial consolidation.
- ✔ Automate variance analysis and financial statement preparation to save time.
