

FloQast is now available on AWS Marketplace

Harness the power of the FloQast Accounting Automation platform, a SaaS native workflow automation solution combined with AWS Marketplace's security, governance, and procurement advantages.

Accounting Automation Platform Architecture & Workflow Integration

The FloQast Accounting Automation Platform is a cloud-native AWS solution that focuses on automating the most burdensome areas of record to report, reducing the amount of manual and repetitive work plaguing Finance and Accounting teams. Now, finance and accounting teams drive a high level of velocity, accuracy, and audit readiness, taking one more step toward the goal of operational excellence.

With access to FloQast's Accounting Automation Platform directly within AWS Marketplace, Finance and Accounting teams can now generate greater visibility to manage by exception, capture and codify key business processes to minimize the risk of errors, increase collaboration, implement predictive controls, and drive the creation of a centralized store of evidence. FloQast's availability in AWS Marketplace enables users to harness a trusted solution provider's expertise while also benefiting from AWS Marketplace's security, governance, and procurement advantages. This synergy aims to optimize cost savings, streamline procurement, and expedite innovation.

Drive Automation and Efficiency with Advanced Workflow Solutions

FloQast's Advanced Workflow Solutions focus on the most burdensome areas of Finance and Accounting to help organizations reduce the burden of manual, repetitive work. With FloQast, teams can capture and codify key business processes to minimize the risk of error and ensure that Finance and Accounting maintain high speed, accuracy, compliance, and audit readiness.

* 2021 and 2022 FloQast Customer Survey

"I absolutely love that capability. Before FloQast, I used to run a trial balance multiple times a day, constantly checking for changes. Now, I rely solely on FloQast to alert me whenever a change requires us to revisit our work papers. The email notification is a great addition because I can easily review it every morning."

Kim Le

Senior Manager, Corporate Accounting & Reporting, Gong.io

"FloQast has transformed the way we've been able to see our SOX and controls environment in a clearer fashion, it's a totally improved program. We have fewer meetings, less back and forth, and I can report up to our CFO or CAO in a more thorough and meaningful way."

Christina Kang

Senior Director Technical Accounting and SEC Reporting, Veracyte

"We used to go up to midnight on our last day of the Close, checking and rechecking entries and final reviews, but now everything is signed off by 3 or 4 in the afternoon, which is a big win for our team."

Scott Christensen

Sr. Director, Accounting, Cricut
