

Achieving Connected Compliance with FloQast

Unlock the Power of Connected Compliance

FloQast Compliance Management is designed to transform the way compliance and internal audit teams manage compliance. By integrating risk management, control execution, and internal audit processes into one seamless platform, FloQast ensures that your compliance efforts are more connected, transparent, and effective.

Key Benefits

Streamline Compliance Processes

FloQast centralizes all compliance activities into one cohesive platform. Say goodbye to fragmented processes and manual effort - helping ensure everyone is aligned toward the same compliance goals, driving greater operational excellence with ease.

Enhance Visibility and Control

Gain real-time insights into your compliance program with our intuitive dashboards and reporting tools. Monitor control performance, track risk profiles, and ensure your organization stays compliant with minimal effort.

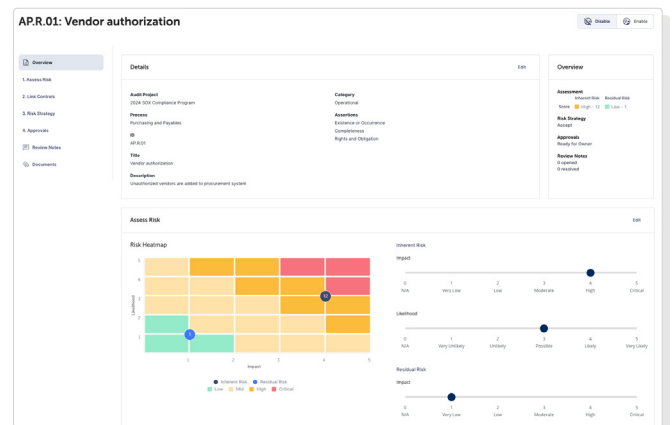

Purpose-built Automation

FloQast automates the most manual aspects of compliance so teams can focus on strategic initiatives. Our automation enhances efficiency without compromising insight and empowers teams to drive greater value and proactively manage risk.

Why Choose FloQast?

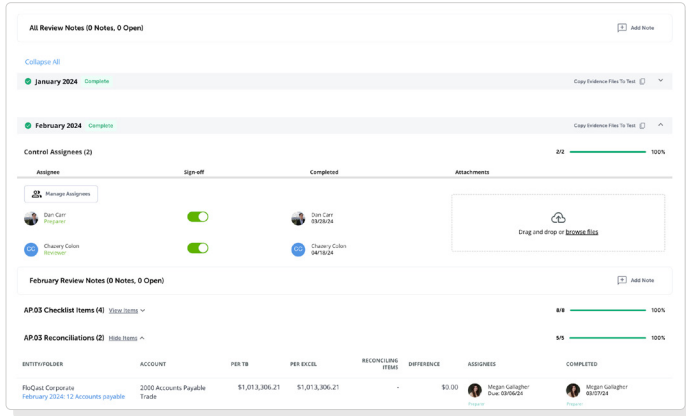

Comprehensive Risk Management

Document and assess risks, control effectiveness, and remediation efforts in one place. Ensure your organization is prepared to manage and mitigate risks effectively.

Automated Evidence Collection

Control execution capture can be set up in FloQast by embedding controls into workflows, executing them directly in FloQast with automated reminders, or syncing data from third-party systems—ensuring real-time visibility and accountability.

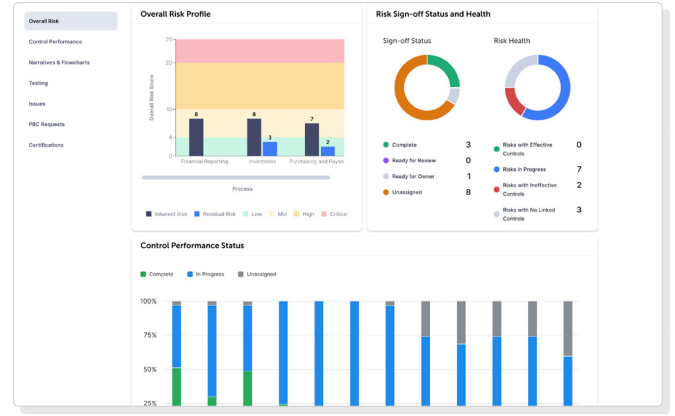

Testing at the Source

Define and execute internal audit testing, including internal controls and operational audits. Leverage automation, such as automated sample selections and AI testing, to help your team execute a more robust audit plan.

Real-Time Dashboards and Reporting

Stay on top of your compliance efforts with real-time dashboards that provide a comprehensive view of your control environment. Make data-driven decisions and address issues promptly.

User-Friendly and Intuitive

FloQast is built to be as self-serving as possible. Our user-friendly interface ensures quick adoption and ease of use, empowering your team to manage your compliance frameworks confidently and independently.

"It's easy to see the impact that FloQast has made, and that goes beyond just the compliance function. Using FloQast Compliance Management gives me a lot of confidence and insight I didn't have before. The overall experience - the speed of implementation, the agility it offers us, and just how robust the functionalities are - has been terrific."

Brandon Peters, Director of SOX Compliance and Head of Internal Audit a.k.a Brands
