

Simplify Your Financial Reporting

FloQast Consolidation

Are you ready to revolutionize your financial consolidation process?

FloQast Consolidation, a key component of the FloQast Accounting Transformation Platform, streamlines and automates your consolidation and reporting, delivering unparalleled precision, efficiency, and ease of use.

THE CHALLENGE:

Navigating Financial Complexity

Modern accounting teams face mounting challenges, such as:

- Managing multiple entities and general ledgers
- Time-consuming manual consolidation processes
- Inconsistent data across systems
- Difficulty in producing timely, accurate financial reports
- Extracting actionable insights from complex financial data
- Preparing cash flow statements that remain synchronized with other financial outputs

These obstacles not only strain resources but also make it harder to respond quickly to business needs.

THE SOLUTION:

FloQast Consolidation

Integrated seamlessly with your existing FloQast suite, our Consolidation product brings clarity and efficiency to your financial close. Whether it's multi-entity management, clear reporting, or taking guesswork out of process automation, FloQast Consolidation provides everything you need—all in one platform.

Key Features:

Effortless Setup: Set up entities, charts of accounts, and dimensions quickly to reflect your organization's structure and start reporting right away.

Dimensionality: Build reports that matter using intuitive, pivot table-like tools to analyze data by department, location, or project.

Seamless Integration: Load transactions from multiple ERPs using FloQast's powerful data connections.

Comprehensive Financial Statements: Access detailed balance sheets, income statements, and cash flow statements across your entire entity structure.

Currency Translations: Automated FX translation supported through audit-ready drill throughs and work papers ensures clear, accurate, reliable, and comparable financial statements.

Adjusting Entries: Record topside entries and eliminations securely without impacting ERP data, ensuring clear audit trails.

Why FloQast Consolidation?

Unified Platform: Work seamlessly across FloQast products with one source of truth for all your financial data.

Faster Deployment: Skip complex setups—implement quickly without IT or consultants.

Intuitive Workflow: Flexible tools designed for accountants make reports easy to create, understand, and optimize.

Real-Time Insights: Access up-to-the-minute data to make informed decisions, spot trends, and act quickly.

Scalable Solution: Adapt to growth, restructuring, or global expansion without limits.

Transform Your Consolidation Process Today

FloQast Consolidation goes beyond basic automation to redefine how finance teams manage reports, financial statements, and consolidation processes. Join the accountants already benefiting from better workflows, real-time insights, and tighter controls.
